

ARMY INSTITUTE OF LAW, MOHALI

CYBER LAW AND ITS APPLICATIONS (13 -17 SEPT 2021)

Course Coordinators: Dr. Amrita Rathi & Dr. Kirandeep Kaur

1. **ABOUT THE COURSE:** The program is meant to serve as a platform for participants from this particular arena and cover relevant topics of concern. The Training Program is exhaustive in nature and spans over a period of 5 days. The program entails to bring together experts and academicians from this particular area, in order to enable a fruitful learning process.
2. **OBJECTIVES OF THE COURSE:** Cyber law is fundamentally the branch of law that deals with legal issues related to the use of information technology. Information technology is affecting us as individual and as a society. When Internet was first developed, the founding fathers hardly had any inkling that internet could transform itself into an all-pervading revolution which could be misused for criminal activities and which required regulations. With the emergence of the technology the misuse of the technology has also expanded to its optimum level. The misuse of the technology has created the need of the enactment and implementation of the cyber laws. As the new millennium dawned, the computer has gained popularity in every aspect of our lives. This includes the use of computers by persons involved in the commission of crimes. Today, computers play a major role in almost every crime that is committed. So, there is a high time to make laws more-strict and make people more aware.
3. **CONTENTS:**
