

AIL Placement Cell

Weekend Webinar Series

The AIL Placement Cell organised a series of Weekend Webinars calling upon the Alumni of the institute to interact with the students. Alumni working with in Law Firms, Corporates, Litigation, Civil Services and Think Tanks gave fruitful insight to the students about the workings of their respective field. A number of topics have been the subject of discussion, such academics, internships, co-curricular activities, opportunities in upcoming fields of law and prospects of higher education. The Alumni shared their valuable experience and guided the students to steer their careers tactically in order to make the most out of their five years at the law school. The Alumni also reminisced about their time spent in the college and talked about the fast-changing legal industry and the challenges that lie ahead.
