

AIL CENTRE FOR GENDER JUSTICE

2024-2025

At ACGJ, we are committed to advancing gender equality and equity within both academic institutions and broader society. We assert that gender equality is a fundamental human right and strive to enhance access to this right across all societal sectors. Our mission is driven by a profound dedication to understanding and addressing the deep-seated causes and intersectional dimensions of existing disparities. As a team of dedicated advocates, we are resolute in our pursuit of dismantling patriarchal structures to foster a just, equitable, and fair society for all. Through a concerted emphasis on awareness, education and advocacy, we endeavor to create a more progressive environment and effect meaningful societal change.
